

Camp Life

Are you interested in a career in marine science? Project Oceanology's Marine Science Research Experience is a unique opportunity for students to participate in authentic science by designing and conducting their own independent research projects. Under the mentorship of professional marine scientists, campers will learn how to use a wide range of oceanographic research equipment and techniques aboard boats, on the shore, and in our waterfront marine laboratories. Campers and staff in this program become a close-knit community of scientists and forge lifelong connections as they design, conduct, and trouble-shoot their experiments, analyze and communicate their results, and live together in our waterfront hostel!

Tuition \$920

Military Discount \$50

Sibling Discount 10%

Multi Session Discount 10%

Summer 2019 Schedule

Week 1 (Gr 10-12) June 23 - June 28

Week 3 (Gr 7-9) July 7 - July 12

Sample Daily Schedule

7:30 am Day Begins
8:00 am Breakfast
8:30 am Meet with research partners & mentors, gather equipment for day
9:00 am Trawl for fish and collect water quality data aboard R/V Envirolab
12:00 pm Lunch
1:00 pm Pine Island and Bluff Point by skiff for seining survey
4:00 pm Meet with mentors; process samples in laboratory; enter data
5:00 pm Lab meeting: share stories, troubleshoot experiments, and give
6:00 pm Dinner
7:00 pm Data analysis and writing; evening activity
9:00 pm Free Time
10:00 pm Lights Out

Camp Hours

Sunday 4pm - Friday 3pm
