

Berlin Youth Soccer

The Berlin Youth Soccer Association will be accepting online registrations for the spring soccer season in early February. We will be emailing additional registration reminders and program updates to the parents of all players who have participated in our programs within the past year.

If you are a parent of a child interested in our program and are new to BYSA or have not participated within the past year and would like more information, please take this opportunity to visit our web site at www.bysa.org.

We have also started a Berlin Youth Soccer Association Facebook page and encourage those parents with interest to 'like' and 'follow' that page. We will be using it to further our communications capabilities regarding important announcements including registration information.
